The Art of Connecting

The Art of Connecting, developed by Youth for Christ, is a 7-week course aimed at equipping your 11-18 year olds in personal evangelism. By learning the art of 'Three-Story Living', your young people will gain confidence in knowing their own story whilst also learning to listen to and value the stories of their friends. By connecting deeper into God's great Story, your young people will see the impact on the lives of those around them. To find out more, contact us or visit the [Art of Connecting website](#).
